

Policy on Natural Areas

12/20/17

Anne Casella

Adam Kent

Ed Williams

Julie Levy

- 1) Policy statement about properties specifically managed for conservation

“Domestic cats will not be released or fed on public lands established and currently managed for the protection of native wildlife.”

- 2) Process for reporting the presence of cats in other wild areas deemed important for conservation

“The observation of cats in natural areas with significant conservation value can be reported to Alachua County Animal Services, which will initiate a process for site assessment and appropriate mitigation, if indicated.”
